

MUNICIPITYMobile
for ANDROID™

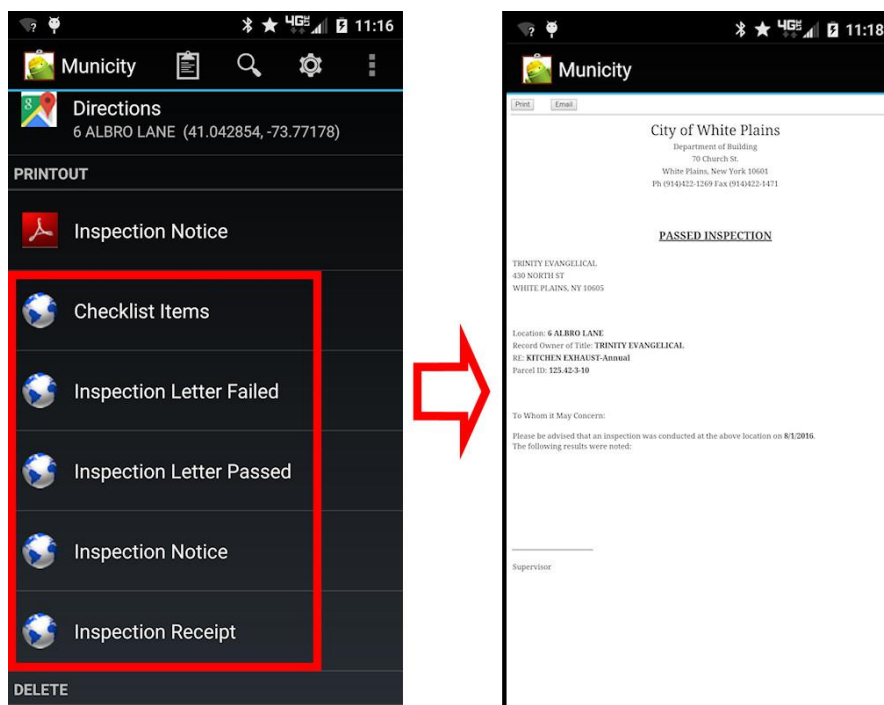

What's New in Municipity Mobile for Android™ v3.4.6?

So What's New?

The v3.4.6 release is an update that increases the security of custom (Logi) printouts. **If you use custom printouts, you must update to this version!**

Secure Custom Printouts

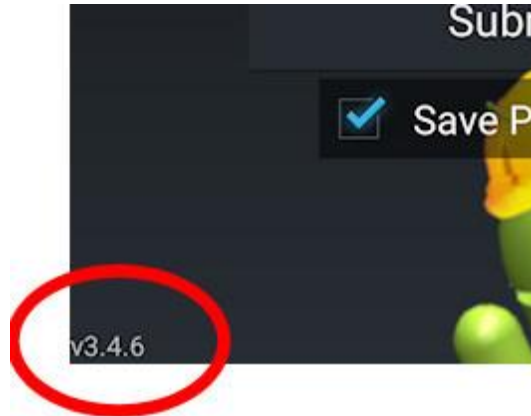

Custom printouts are used in both Municipity Android and Municipity 5 Mobile products. In efforts to increase security, these printouts are now served from a secure (https) source. To adapt, Municipity Android v3.4.6 is updated to properly request secure printouts. Be sure to update your app if you use these printouts, the ones with the globe icons!

How to Update

OK, be sure that the 3.4.6 version of the Muncity Mobile for Android application is installed on your Android device. You may already be configured to download updates automatically. The version is located in the lower-left corner of the login page.

If not, simply download this latest version from [Google Play](#).

Enjoy,

The Muncity / SCA Team
