

What's New in Municipity Mobile for Android™ v3.4.7?

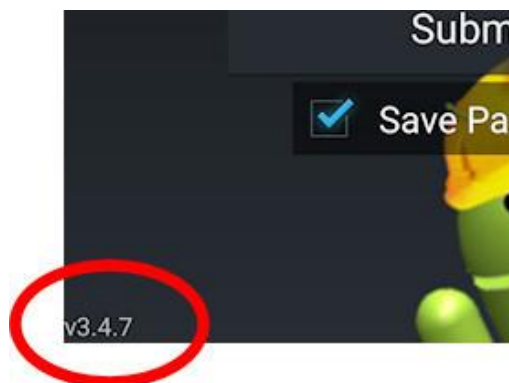

So What's New?

The v3.4.7 release is an update that fixes a bug that could occur on devices when opening inspections or appointments. Users reported seeing loops of "please wait" and "update successful" messages, preventing use of the application. The issue was the cause of the form's assignment spinner firing on initialization, likely the result of spinner animation enabled by an accessibility or other device setting.

How to Update

OK, be sure that the 3.4.7 version of the Municipity Mobile for Android application is installed on your Android device. You may already be configured to download updates automatically. The version is located in the lower-left corner of the login page.

If not, simply download this latest version from [Google Play](#).

Enjoy,
